July 2016
"Hello Von,
There is a newly formed church on the border with Democratic Republic of Congo (UG side). One of the Pastors is a friend of mine. The church became aware of 2 men who were unable to walk and could possibly benefit from an arm trike. The members of the church contributed money to pay for transportation for these men and assembly of the bikes. There is a local man I worked with on assembling the bikes. He gets some money for assembling the bike (~\$4). This is a way for him to have some income and the person getting the bike (and/or their family and friends) to make some small personal investment in the bike.

The men were:.... Bartalomayo - **50 year old cancer survivor who had bilateral above knee amputations in 2012** (I think they progressively amputated higher and higher over the years).... What I had planned for a 2 hour window turned into a 4 plus

hour affair, but it was so fun and such a blessing to be a part of something that will make such a positive impact on these guys! Rhett Wheeler, Bundibugyo, Uganda"<https://www.serge.org/>
